To Register Online

Directions for online registration:

Go to the DBU website: [www.dbu.edu](http://www.dbu.edu);

Select "WebAdvisor" on the top, left side of the screen.

Select "Students" on the right side of the screen.
Click "Log In" near the middle of the next screen.

Type in your username and password (if you do not have these, read the section below on setting them up.)

After typing in your username and password, click on the submit button in the middle of the screen.
Select "Register/Add Classes" on the right, lower section under "Registration."

This will take you to a screen where you must agree to the waiver of your rights to appeal the registration should you accidentally enter incorrect information while you are registering. After you have read the statement, click inside the check box and then on the "Submit" button.

The next screen provides you with the Graduate and Undergraduate eligibility requirements for registering online. After you have read these and know you qualify to register, then click the "Submit" button.
Following this screen, you will be walked through several screens verifying your name and personal information as well as your payment options. After completing these screens, you are ready to choose your classes. Use the down arrows beside each column to register for the appropriate title/section of each course.
