Emergency Response

The University's Crisis Management Manual includes information about the Crisis Management Teams, University operating status parameters; incident priorities and performance expectations; shelter-in-place and evacuation guidelines; and local contingency and continuity planning requirements. University Departments are responsible for developing contingency plans and continuity of operations plans for their staff and areas of responsibility. The University conducts emergency response exercises each year, such as table top exercises, field exercises, and tests of the emergency notification systems on campus. These tests are designed to assess and evaluate the emergency plans and capabilities of the institution.

The DBU Campus Security Department officers and supervisors have received regular training in responding to crises on campus. When a serious incident occurs that causes an immediate threat to the campus, the first responders to the scene are usually the DBU Campus Security Department Officers, Director of Campus Security, Health Services staff, Sports Medicine staff, Emergency Response Team, Dallas Fire and Rescue, and Dallas Police Department. These individuals and organizations typically respond and work together to manage the incident. Depending on the nature of the incident, other campus departments and other local or federal agencies could also be involved in responding to the incident.

General information about the emergency response and evacuation procedures for DBU are publicized each year as part of the institution's Clery Act compliance efforts and that information is available on the DBU web site at <http://www.dbu.edu/CampusSecurity.emergencyresponse>.

All members of the DBU community are notified each semester that they are required to notify the DBU Campus Security Department (DBUCSD) of any situation or incident on campus

that involves a significant emergency or dangerous situation that may involve an immediate or ongoing threat to the health and safety of students and/or employees on campus. DBUCSD has the responsibility of responding to, and summoning the necessary resources, to mitigate, investigate, and document any situation that may cause a significant emergency or dangerous situation. In addition, DBUCSD has a responsibility to respond to such incidents to determine if the situation does in fact, pose a threat to the community. If that is the case, Federal Law requires that the institution immediately notify the campus community or the appropriate segments of the community that may be affected by the situation.

Notification to the DBU Community about an Immediate Threat

The Office of the Executive Vice President receives information regarding possible threats from law enforcement agencies and various offices/departments on campus, such as DBUCSD, Student Affairs, Residence Life, Apartment Life, Health Services, and the Counseling Center. If DBUCSD confirms that there is an emergency or dangerous situation that poses an immediate threat to the health or safety of some or all members of the DBU Community, the Office of the Executive Vice President will collaborate to determine the content of the message and will use some or all of the systems described below to communicate the threat to the DBU Community or to the appropriate segment of the community, if the threat is limited to a particular building or segment of the population. The Office of the Executive Vice President will, without delay and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the judgment of the first responders (including, but not limited to: DBUCSD, Dallas Fire and Rescue, and/or

the Dallas Police Department), compromise the efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

In the event of a serious incident that poses an immediate threat to members of the DBU community, the University has various systems in place for communicating information quickly. Some or all of these methods of communication may be activated in the event of an immediate threat to the DBU campus community. These methods of communication include network emails, emergency text messages that are sent to a phone or PDA, emergency messages that can scroll across computer screens when logged into the University system and audible siren and verbal command warnings that can be broadcast through the DBU Public Address System. Individuals who do not want to receive emergency text messages must opt out of the service. The University will post updates during a critical incident on the DBU web site. Individuals can call DBU's ICE (In Case of Emergency) recorded information telephone line at 214.333.7ICE (214.333.7423) for updates.

DBUCSD trucks are equipped with Public Address Systems and these trucks can be strategically placed throughout the campus to facilitate communication through the PA system. Members of the larger community who are interested in receiving information about emergencies on campus should sign up for the emergency text message system at <https://webreg.dbu.edu/emas/>. In addition, the DBU website and the 214.333.7ICE (214.333.7423) line can be used for obtaining updates in the event of an emergency on campus.

Procedure for Testing Emergency Response and Evacuation Procedures

An evacuation drill is coordinated by DBUCSD each semester for all residential facilities on campus. Students learn the locations of the emergency exits in the buildings and are provided

guidance about the direction they should travel when exiting each facility for a short-term building evacuation. DBUCSD does not inform residents in advance about the designated locations for long-term evacuations because those decisions are affected by time of day, location of the building being evacuated, the availability of the various designated emergency gathering locations on campus, and other factors such as the location and nature of the threat. However, the university has established written plans for continuation of university operations, housing, and course delivery, which will be communicated to the campus community when such situations arise. In all cases, DBUCSD, Residence Life, and Apartment Life staff on the scene will communicate information to students regarding the developing situation or any evacuation status changes.

The purpose of evacuation drills is to prepare building occupants for an organized evacuation in case of an emergency. At DBU, evacuation drills are used as a way to educate and train occupants on issues specific to their building. During the drill, occupants practice drill procedures and familiarize themselves with the location of exits and the sounds of the notification alarm. In addition to educating the occupants of each building about the evacuation procedures during the drills, the process also provides the University an opportunity to test the operation of fire alarm and emergency notification system components.

Evacuation drills are monitored by DBUCSD and appropriate residence departments to evaluate egress and behavioral patterns. Reports are prepared by participating departments, which identify deficient equipment, process, and/or procedures so that modifications can be made immediately. Recommendations for improvements are also submitted to the appropriate departments/offices for consideration.

Students receive information about evacuation and shelter-in-place procedures during their first hall meetings of the semester and during other educational sessions that they can participate in throughout the year. The resident directors and resident assistants are trained in these procedures as well and act as an on-going resource for the students living in residential facilities.

DBUCSD conducts announced and unannounced drills and exercises each year and conducts follow-through activities designed for assessment and evaluation of emergency plans and capabilities. DBUCSD coordinates announced and unannounced evacuation drills each semester, as described above, to test the emergency response and evacuation procedures, and to assess and evaluate the emergency evacuation plans and capabilities. DBUCSD will publish a summary of its emergency response and evacuation procedures in conjunction with at least one drill or exercise each calendar year.

Shelter-in-Place Procedures—What it Means to "Shelter-in-Place"

If an incident occurs and the buildings or areas around you become unstable, or if the air outdoors becomes dangerous due to toxic or irritating substances, it is usually safer to stay indoors, because leaving the area may expose you to that danger. Thus, to "shelter-in-place" means to make a shelter of the building that you are in, and with a few adjustments this location can be made even safer and more comfortable until it is safe to go outside.

Basic "Shelter-in-Place" Guidance. If an incident occurs and the building you are in is not damaged, stay inside—seeking an interior room—until you are told it is safe to come out. If your building is damaged, take your personal belongings (purse, wallet, DBU ID card, etc.) and follow the evacuation procedures for your building (close your door, lock your room/unit,

proceed to the nearest exit, and use the stairs instead of the elevators). Once you have evacuated, seek shelter at the nearest University building quickly. If police or fire department personnel are on the scene, follow their directions.

How You Will Know to “Shelter-in-Place.” A shelter-in-place notification may come from several sources, including DBUCSD, Student Affairs, Residence Life, Apartment Life, other University employees, the federal, state, or local government, Dallas Police Department, Dallas Fire and Rescue, or other authorities utilizing the University’s emergency notification system.

How to “Shelter-in-Place.” No matter where you are, the basic steps of shelter-in-place will generally remain the same. Should the need ever arise; follow these steps, unless instructed otherwise by local emergency personnel:

1. If you are inside, stay where you are. Collect any emergency shelter-in-place supplies and a telephone to be used in case of emergency. If you are outdoors, proceed into the closest building quickly or follow instructions from emergency personnel on the scene.
2. Locate a room to shelter inside. It should be:
 - a. An interior room;
 - b. Above ground level; and
 - c. Without windows or with the least number of windows. If there is a large group of people inside a particular building, several rooms maybe necessary
3. Shut and lock all windows (tighter seal) and close exterior doors.
4. Turn off air conditioners, heaters, and fans.

5. Close vents to ventilation systems as you are able. (University staff will turn off ventilation as quickly as possible.)
6. Make a list of the people with you and ask someone (Residence Life staff, Apartment Life staff, faculty, or other staff) to call the list in to DBUCSD so they know where you are sheltering. If only students are present, one of the students should call in the list.
7. Turn on a radio or TV and listen for further instructions.
8. Make yourself comfortable.

Timely Warnings

In the event that a situation arises, either on or off campus, that, in the judgment of the President or Executive Vice President, constitutes an ongoing or continuing threat, a campus wide “timely warning” will be issued. The warning will be issued through the DBU e-mail system to students, faculty, staff and the emergency text message system, as well as through the emergency contact system, and potentially through the DBU Public Address Outdoor Warning system.

Depending on the particular circumstances of the crime, especially in all situations that could pose an immediate threat to the community and individuals, a University administration or the DBUCSD may also post a notice on the DBU web site home page: <http://www.dbu.edu>, providing the university community with more immediate notification. In such instances, a copy of the notice is posted in each residence hall and at the front door of each apartment. Anyone with information warranting a timely warning should report the circumstances to the DBUCSD, by phone (214.333.5305) or in person at the Campus Security Department on the lower level of Pilgrim Chapel.

Preparation of Disclosure of Crime Statistics

The Campus Security Department prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. The full text of this report is located on the DBU web site at <http://www.dbu.edu/CampusSecurity.crimestatistics>.

This report is prepared in cooperation with the local law enforcement agencies surrounding the main campus and regional academic centers, Residence Life, Apartment Life, and Student Affairs. Each entity provides updated information on their educational efforts and programs to comply with the Act.

Campus crime, arrest and referral statistics include those reported to the DBUCSD, designated campus officials (including but not limited to vice presidents, directors, deans, department heads, advisors to students/student organizations, athletic administration, athletic coaches), and local law enforcement agencies. The DBU Counseling Center staff informs their clients of the procedures to report crime to the DBUCSD on a voluntary or confidential basis, should they feel it is in the best interest of the client. A procedure is in place to anonymously capture crime statistics disclosed confidentially during such a session.

Each year, an e-mail notification is made to all enrolled students that provides the web site to access this report. Faculty and staff receive similar e-mail notification. Copies of the report may also be obtained at the Campus Security Department located on the lower level of Pilgrim Chapel or by calling 214.333.5305. All prospective employees may obtain a copy from Human Resources in the Strickland Building, first floor or by calling 214.333.5158.

How to Report Criminal Offenses

Emergency telephones are also available on the exterior entrances of Williams Hall, Lange Hall, Spence Hall, Crowley Complex, back dock of Mahler Student Center, and Baseball Field concession stand. Any suspicious activity or person seen in the parking lots or loitering around vehicles, inside buildings or around residence halls or apartments, should be reported to DBUCSD. Voluntary Confidential Reporting

If you are the victim of a crime and do not want to pursue action within the University System or the criminal justice system, you may still want to consider making a confidential report. With your permission, the Director of Campus Security can file a report on the details of the incident without revealing your identity. The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the future safety of yourself and others. With such information, the University can keep an accurate record of the number of incidents involving students, determine where there is a pattern of crime with regard to a particular location, method, or assailant, and alert the campus community to potential danger. Reports filed in this manner are counted and disclosed in the annual crimes statistics for the institution.

Limited Voluntary Confidential Reporting

DBUDCS encourages anyone who is the victim or witness to any crime to report promptly the incident to DBUDCS. Confidential reports for purposes of inclusion in the annual disclosure of crime statistics can be made to DBUDCS.

Security and Access

During business hours, DBU (excluding certain housing facilities) will be open to students, parents, employees, contractors, guests, and invitees. During non-business hours, access to all university facilities is by key, if issued, or by admittance via the DBUDCS, Residence Life staff, or Apartment Life staff. In the case of periods of extended closing, the university will admit only those with prior written approval to all facilities.

Residence halls are secured 24 hours a day. Over extended breaks, the doors of all halls will be secured around the clock. Some facilities may have individual hours, which may vary at different times of the year. In these cases, the facilities will be secured according to schedules developed by the department responsible for the facility. Emergencies may necessitate changes or alterations to any posted schedules.

Campus Law Enforcement Authority

DBUDCS officers have the authority to ask persons for identification and to determine whether individuals have lawful business at DBU. DBUDCS officers have the authority to issue citations for violations of current parking regulations, which are billed to financial accounts of students, faculty, and staff. Officers do not possess arrest power. Criminal incidents are referred to the Dallas Police Department, who has jurisdiction on the campus. DBUDCS maintains a highly professional working relationship with the Dallas Police Department and Dallas County Sheriff's Department. All crime victims and witnesses are strongly encouraged to immediately report the crime to DBUDCS and the appropriate police agency. Prompt reporting will assure timely warning notices on-campus and timely disclosure of crime statistics.

Relationship of DBUDCS and Local Law Enforcement Agencies

DBU recognizes that laws and rules are necessary for society to function and supports the enforcement of law by governmental agencies and rules by officials of DBU. All persons on the campus are subject to these laws and rules at all times. While DBU is private property, and Constitutional protections apply, law enforcement officers may enter the campus to conduct business as needed. Additionally, the officers are invited to patrol the campus to assist DBUDCS in deterring crime. All law enforcement agencies are expected to check in with DBUDCS when

on campus. The response time of DPD and Dallas Fire and Rescue (DFR) to campus averages approximately two minutes for emergency calls. The relationship between DBU and DPD is described in a “memorandum of understanding” (MOU). The MOU outlines which law enforcement agency will have jurisdiction over which types of offenses. DBUDCS officers have no arrest authority beyond that of an ordinary citizen. These officers may make an arrest in the event a felony is committed in his or her presence. However, as a matter of course, serious crimes are the responsibility of DPD.

DBUDCS officers are expected to render all possible assistance provided such assistance can be given without significantly endangering the officer or others not involved in the crime. DPD is notified of all serious crime on campus, and is immediately notified of major crimes via the telephone. DBU relies on the telephone to contact the emergency dispatch center for fire and emergency medical needs. All victims are offered an opportunity to report crimes to DPD.

Meetings or telephone conversations between the DPD Southwest Division deputy chief (or his designee) and the Director of Campus Security allow for exchanges of routine information on a timely basis. Additionally, special needs are communicated between agencies as they occur.

Encouragement of Accurate and Prompt Crime Reporting

DBU students, faculty, staff, and guests are encouraged to report all crimes and public safety related incidents to DBUDCS in a timely manner. To report a crime, emergency, non-emergency security or public safety related matter, call DBUDCS at 214.333.5305.

Dispatchers are available at this telephone numbers 24 hours a day, seven days a week, to answer calls. In response to a call, DBUDCS will take the required action, dispatching an officer or asking the victim to report to DBUDCS to file an incident report.

All DBUDCS incident reports are forwarded to the Executive Vice President for review and potential action by the Student Affairs. DBUDCS will investigate a report when it is deemed appropriate.

If assistance is required from the Dallas Police Department, DBUDCS will contact the appropriate unit. If a sexual assault or rape should occur, staff on the scene, including DBUDCS, will offer the victim a wide variety of services.

Crimes should be reported to DBUDCS to ensure inclusion in the annual crime statistics and to aid in providing timely warning notices to the community, when appropriate.

Counselors and Confidential Crime Reporting

Campus “Pastoral Counselors” and Campus “Professional Counselors”, when acting as such, are not considered a campus security authority and are not required to report crimes for inclusion into the annual disclosure of crime statistics. As a matter of policy, they are encouraged; if and when they deem it appropriate, to inform persons being counseled of the procedures to report crimes on a voluntary basis for inclusion into the annual crime statistics.

Pastoral Counselor. An employee of an institution who is associated with a religious order or denomination, recognized by that religious order or denomination as someone who provides confidential counseling and who is functioning within the scope of that recognition as a pastoral counselor.

Professional Counselor. An employee of an institution whose official responsibilities include providing psychological counseling to members of the institution's community and who is functioning within the scope of his or her license or certification.

Awareness Programs for Students and Employees

Students are informed of services offered by DBUDCS during an orientation held at the beginning of each semester. Verbal presentations outline ways to maintain personal safety and residence hall security. Students are told about crime on-campus and in surrounding neighborhoods. Similar information is presented to new employees during an orientation event held each year.

Information regarding personal safety is distributed periodically to all faculty, staff, and students.

When time is of the essence, information is released to the university community through security alerts sent via e-mail and/or printed notices.

Crime Prevention Programs for Students and Employees

Crime Prevention Programs on personal safety and theft prevention are sponsored by various campus organizations throughout the year. DBUDCS facilitate programs for students, faculty, and new employee orientations, student organizations, in addition to bi-annual programs for resident advisers and residents providing a variety of educational strategies and tips on how to protect themselves from sexual assault, theft and other crimes.

Monitoring Criminal Activity Off Campus

DBUDCS does not provide law enforcement service to off-campus residences nor are activities off-campus recognized by university authority. Criminal activity at off-campus residences is monitored and recorded by the appropriate local law enforcement agency.

DBUDCS enjoy a close working relationship with all surrounding law enforcement agencies when violations of federal, state, or local laws surface. This cooperative team approach addresses situations as they arise as well as future concerns.

Alcoholic Beverages and Controlled Substances

The possession, sale or the furnishing of alcohol on the University campus is strictly forbidden. The enforcement of alcohol rules on-campus is the responsibility of DBUDCS, Student Affairs, Residence Life, and Apartment Life. The possession, sale, manufacture or distribution of any controlled substance is illegal under both state and federal laws. Such laws are strictly enforced by DBUDCS. Violators are subject to University disciplinary action, criminal prosecution, fine and imprisonment. It is unlawful to sell, furnish or provide alcohol to a person under the age of 21. The possession of alcohol by anyone under 21 years of age in a public place or a place open to the public is illegal. It is also a violation of the DBU policy for anyone to consume or possess alcohol in any public or private area of campus. Organizations or groups violating alcohol/substance policies or laws may be subject to sanctions by the University.

Substance Abuse Education

Prevention Programs. DBU has developed programs to prevent the illicit use of drugs and the abuse of alcohol by students and employees. The program provides services related to

drug use and abuse including dissemination of informational materials, educational programs, counseling services, referrals and college disciplinary actions. The Athletic Department annually instructs student-athletes about the dangers of the illicit use of drugs and the abuse of alcohol. Student-athletes found to be in violation of alcohol policies are required to participate in an alcohol education program.

DBU's Student Affairs Office, in partnership with Human Resources, provides an overall coordination of the Drug-Free School Program. However, many services are the responsibility of other areas of the institution. These include:

Alcohol and Drug Education: Student Affairs and Human Resources

Counseling Services: Counseling Center

Referral Services: Student Affairs, Health Services, Counseling Center

College Disciplinary Actions: Student Affairs

A violation of any law regarding alcohol is also a violation of the DBU's Student Code of Conduct and will be treated as a separate disciplinary matter by DBU.

Missing Student Notification Policy & Procedures

1. In order to facilitate timely notification of the proper individuals in the case of a missing student, all students living in DBU residence halls, apartments, townhomes, or University-owned off-campus housing will have the option to identify confidential contact information for an emergency contact person of their choice on their Housing Application. Each student is responsible for keeping the contact information updated during the course of the academic year, and will be asked to verify contact information each year thereafter upon renewal of their Housing Application. The Director of Apartment Life and Director of Residence Life will maintain contact information in accordance with all state and federal laws.

2. If any member of the University community has reason to believe that a student living in University-owned housing is missing, they should immediately contact the Campus Security Department. Upon receiving this report, Campus Security will initiate an investigation in an attempt to determine the whereabouts and status of the student. This investigation may include, but is not be limited to: keying into the student's room, interviewing known associates, searching campus public locations (e.g. library, cafeteria, etc.), searching access card logs to determine the last use of the card and track the card for future uses, accessing vehicle registration information, accessing email logs to determine the last login and use of the University email system, and other measures deemed appropriate by Campus Security.

3. A student living in University-owned housing will conclusively be deemed "missing" if the student is absent from the university for more than 24 hours, unless the student has provided information about their intended whereabouts. Likewise, a student living in on-campus

housing will not be considered missing if they are gone during recognized University holidays and/or breaks.

4. If the Campus Security Department's investigation determines that a student for whom a report has been filed has been missing for more than twenty-four (24) hours, the Campus Security Director will notify the Director of Apartment Life or the Director of Residence Life as appropriate. The Director will notify the Dean of Students to determine how best to make contact in accordance with paragraph 5 of this policy statement.

5. (A) If the missing student is under the age of eighteen (18) and not emancipated, the Dean of Students will contact the missing student's custodial parent[s] or guardian[s] within 24 hours after the time that the student is determined to be missing.

(B) If the missing student is emancipated or eighteen (18) years of age or older, the Dean of Students will contact the emergency contact person provided by the student pursuant to paragraph 1 above within 24 hours after the time that the student is determined to be missing.

(C) Likewise, in all cases involving a missing student, the Dean of Students will be responsible for notifying the appropriate law enforcement agency not later than 24 hours after the time that the student is determined to be missing.

Implementation. This policy shall be included in the Residence Life Section of the Student Handbook and on the Apartment Life Community and Resident Policies Supplemental Lease Document. Likewise, this policy will be sent to students by university email and discussed at least once a semester at required Hall/Dormitory/Apartment Resident meetings.

The Dean of Students and the Director of Apartment Life and Director of Residence Life shall have primary responsibility for publication, dissemination and implementation of this University policy.

Disclosures to Alleged Victims of Crimes of Violence or Non-forcible Sex Offenses

DBU will, upon written request, disclose to the alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the university against the student who is the alleged perpetrator of the crime or offense. If the alleged victim is deceased as a result of the crime or offense, DBU will provide the results of the disciplinary hearing to the victim's next of kin, if so requested.

Preventing and Responding to Sex Offenses

DBU educates the student community about sexual assaults and date rape through mandatory student apartment and residence hall meetings each fall. DBUCSD offers sexual assault education and information programs to University students and employees upon request. Literature on date rape education, risk reduction, and University response is available through the Counseling Center, Campus Security, Residence Life, and Apartment Life.

If you are a victim of a sexual assault at DBU, your first priority should be to get to a place of safety. You should then obtain necessary medical treatment. DBUDCS strongly advocates that a victim of sexual assault report the incident in a timely manner. Time is a critical factor for evidence collection and preservation. An assault should be reported directly to a DBUDCS officer and/or to a Residence Life or Apartment Life representative. Filing a police report will not obligate the victim to prosecute, nor will it subject the victim to scrutiny or judgmental opinions from officers. Filing a police report will:

- ensure that a victim of sexual assault receives the necessary medical treatment and tests, at no expense to the victim;
- provide the opportunity for collection of evidence helpful in prosecution, which cannot be obtained later (ideally a victim of sexual assault should not wash, douche, use the toilet, or change clothing prior to a medical/legal exam);
- assure the victim has access to free confidential counseling from counselors specifically trained in the area of sexual assault crisis intervention.

When a sexual assault victim contacts the DBUDCS, the Dallas Police Department will be notified as well. A representative from the Student Affairs will also be notified. The victim of a sexual assault may choose for the investigation to be pursued through the criminal justice system and Student Affairs, or only the latter. A Student Affairs representative will guide the victim through the available options and support the victim in his or her decision. Various counseling options are available from the DBU's Counseling Center. Counseling and support services outside the university system can be obtained through the Victim Services Office of the Dallas Police Department (214.744.4444).

A student found guilty of violating the DBU sexual misconduct policy could be criminally prosecuted in the state courts and may be suspended or expelled from the university for the first offense.

DBU disciplinary proceedings, as well as special guidelines for cases involving sexual misconduct, are detailed in the *Student Handbook*. The *Handbook* provides, in part, that the accused and the victim will each be allowed to choose one person who has had no formal legal

training to accompany them throughout the hearing. Both the victim and accused will be informed of the outcome of the hearing.

Sex Offender Registration

The Campus Sex Crimes Prevention Act (CSCPA) of 2000 is a federal law that provides for the tracking of convicted sex offenders enrolled at, or employed at, institutions of higher education. The CSCPA is an amendment to the Jacob Wetterling Crimes Against Children and Sexually Violent Offender Act. The federal law requires state law enforcement agencies to provide DBU with a list of registered sex offenders who have indicated that they are either enrolled, employed or carrying on a vocation at DBU.

DBU is required to inform the campus community that a registration list of sex offenders will be maintained and available in the DBUDCS office on the lower level of Pilgrim Chapel.

In addition, a list of all registered sex offenders in Texas is available from the Texas Department of Public Safety at https://records.txdps.state.tx.us/DPS_WEB/SorNew/index.aspx.

The CSCPA further amends the Family Educational Rights and Privacy Act of 1974 (FERPA) to clarify that nothing in the Act can prohibit an educational institution from disclosing information provided to the institution concerning registered sex offenders.

This statement is provided in compliance with the Campus Sex Crimes Prevention Act of 2000.

Fire Safety Report

This report is distributed annually to all current students, faculty, and staff members of Dallas Baptist University. The report is also available for prospective students and employees on the DBU web site at <http://www.dbu.edu/CampusSecurity.2011report>.

The annual fire safety report, available on October 1 of each year, contains DBUCSD, Residence Life, and Apartment Life policies, procedures, and statistics regarding fires, fire safety, and fire safety education in student housing for the previous calendar year. DBU monitors fire activity in the surrounding geographic area as recorded by the Dallas Fire Department.

On-Campus Student Housing

Student housing at DBU consists of six residence halls, 120 apartments, and 48 townhomes.

The residence halls are Spence Hall, Williams Hall, Lange Hall, Calabria Hall, Crowley Hall, and Sharp Hall. The residence halls can house 814 students.

The Colonial Village Apartments consist of five buildings: Blackburn Hall, Byrd Hall, Cook Hall, Hurley Hall, and White Hall. Colonial Village can house 480 students.

The Williamsburg Village Townhomes consist of eleven buildings and can house 336 students.

Table 1 displays statistics and related information regarding fires in residential facilities on the DBU campus.

Fire Safety Systems

Each residence hall is equipped with fire alarms, smoke detectors, fire extinguishers, and fire doors that reduce the spread of fire. Spence Hall is also equipped with a sprinkler system.

Colonial Village Apartment breezeways are equipped with smoke alarms and fire extinguishers, on each floor. Apartments are equipped with smoke alarms and sprinkler systems in each unit. Williamsburg Village townhomes are equipped with smoke alarms and sprinkler systems in each unit. Table 2 exhibits fire safety systems with the DBU residential facilities.

Procedures for Evacuation of Student Housing in Case of Fire

In the event of a fire, the university expects that all campus community members will evacuate by the nearest exit, closing doors and activating the fire alarm system (if one is present) as they leave. Once safely outside a building, it is appropriate to contact DBUCSD and 9-1-1. Students and/or staff are informed where to relocate to by staff if circumstance warrants at the

time of the alarm. Written procedures are provided to all students, faculty, and staff indicating evacuation areas in case of fire. In the event fire alarms sound, DBU policy is that all occupants must evacuate from the building, closing doors as they leave. No training is provided to students or employees in firefighting or suppression activity as this is inherently dangerous and each community member's only duty is to exit safely and quickly, shutting doors along the exit path as they go to contain the spread of flames and smoke, and to activate the alarm as they exit. At no time should the closing of doors or the activation of the alarm delay the exit from the building.

Policies on Portable Electric Appliances, Smoking and Open Flames in Student Housing

Residence Life performs residence hall safety inspections weekly. The inspections include, but are not limited to, a visual examination of electrical cords, sprinkler heads, smoke detectors, fire extinguishers and other life safety systems. Specific inspection of smoke detectors and fire extinguishers are conducted by DBUCSD.

In addition, each room will be examined for the presence of prohibited items (e.g., sources of open flames, such as candles; non-surge protected extension cords; halogen lamps; portable cooking appliances in non-kitchen areas; etc.) or prohibited activity (e.g., smoking in the room; tampering with life safety equipment; possession of pets; etc.). This inspection will also include a general assessment of food and waste storage and cleanliness of the room. Prohibited items will be immediately disabled with a locking device or confiscated and donated/discarded if found, without reimbursement.

Residence hall students are required to read and comply with the regulations stated in Q & A Handbook. The handbook is available online. and hard copy mailed with housing

application). Residence hall students sign a Residence Hall Agreement on move-in day every semester.

Apartment inspections are conducted four times per year by the Apartment Life staff. Inspections entail elements identical to those conducted in residence halls. Students are informed of the regulations in the apartment lease, in the Student Handbook, and during the Apartment Life mandatory meeting, which is held annually. All apartment residents are required to sign their lease, which indicates agreement to follow all apartment regulations.

Fire Prevention Policies

The use of candles is prohibited in any building, residence hall, apartment, or townhome.

- Smoking is prohibited on the DBU campus.
- Portable electronic appliances, with an open heating element, are prohibited in residence hall rooms. Electronic appliances are permitted in designated areas of residence halls.
- Halogen bulb lamps are prohibited in campus residential housing.

Fire Safety Education and Training Programs

Fire safety education programs for all students living in on-campus student housing and all employees that have any association with on-campus student housing are held at the beginning of each semester. These programs are designed to: familiarize students and staff with the fire safety system in each housing facility, train students and staff on the procedures to be followed in case there is a fire and distribute information on the university's fire safety policies. Students and staff are provided with maps of each on-campus student housing facility that illustrate evacuation routes and fire alarm equipment locations. During these programs, trainers

emphasize that participating in fire drills is mandatory. Students with disabilities are given the option to have a “buddy” assigned to them.

Fire safety education and training programs are taught the Director of Campus Security, who is experienced in fire safety matters.

If a fire occurs, students are instructed to leave hazardous areas per the evacuation routes and move immediately to a predetermined location before calling 911 for help. Students are to remain in that location until cleared to return to the building by DBUCSD or the Emergency Response Team. Resident Assistants are instructed to pull the fire alarm as they are leaving the building if they can do so without risking their safety.

The Campus Safety Guide is distributed to faculty, staff, and students annually in October. The guide provides detailed information on procedures to follow in the event of fire. Each building has a designated contact person to disseminate warnings and direct evacuation procedures in the event of fire, or other disaster. A phone tree listing is utilized to alert contact persons to emergency situations. Contact persons receive annual training regarding fire procedures and the use of the phone tree emergency contact plan.

General Guidelines in Case of Fire

In case of fire, immediately contact Campus Security at extension 5305, or 214.333.5305. The emergency phone tree will be initiated to notify building occupants of fire and the urgency of evacuation. The outdoor emergency warning system will be used to broadcast a warning of fire. The Emergency Alert Message System (EMAS) will be used to provide a timely warning regarding a fire.

The Campus Safety Guide provides detailed information regarding fire procedures. The following information is also found in the Campus Safety Guide.

Students, faculty, and staff should be familiar with the safety procedures and identifiable terms as they pertain to the threat of a fire on the campus of Dallas Baptist University:

In the event of fire...

1. Move to the exterior of the building immediately.
2. Stay clear of all glass doors, windows, and unsecured items that could become airborne.
3. Do not use elevators.
4. Avoid areas filled with heavy smoke.
5. If travel through smoke is unavoidable:
 - a. Keep your head low to the ground.
 - b. Cover your nose and mouth with a wet towel and crawl on the floor.

In the event of clothing catching fire:

1. Stop ... Decreased movement will slow the speed of the fire.
2. Drop ... A horizontal position will cause the fire's progress from moving up to your face.
3. Roll ... Smothering the fire helps to extinguish flames.

NOTE: All department areas should be equipped with flashlights, emergency weather radios, and first-aid kits. Additional equipment for residential areas includes bullhorns and communication radios. All items that require batteries should be tested on a regular basis.

Procedures in the Event of a Fire

The Emergency Response Team (ERT) will establish the Emergency Response Command Post in the Office of the Executive Vice President in Durham Hall, Strickland Building, First Floor.

Buildings should be evacuated immediately upon hearing a fire alarm or fire announcement. Individuals are to remain in the designated safe areas until cleared by DBUCSD or the Emergency Response Team.

Faculty members are responsible for ensuring that all students in their classrooms evacuate buildings immediately upon hearing a fire alarm or fire announcement.

The Emergency Response Team will communicate by mobile telephone and/or radio to the designated building contact persons. Each individual will, in turn, call other designated contact persons located in their building. If mobile telephones are not functional, contact persons should attempt to physically locate all faculty and staff present in their assigned areas to provide emergency information and assistance.

Building contact persons will be responsible for guiding faculty, staff, and students to the designated safe areas. Building contact persons will be notified when the “all clear” message is given.

Reporting That a Fire Occurred

Per federal law, DBU is required to disclose annually statistical data on all fires that occur in on-campus student housing facilities. Listed below are the **non-emergency** numbers to call to report fires that have already been extinguished in on-campus student housing. These are fires for which you are unsure whether DBUCSD may already be aware. If you find evidence of such a fire or if you hear about such a fire, please contact one of the following:

Department of Campus Security	214.333.5305
Director of Residence Life	214.333.5340
Director of Apartment Life	214.333.2209

When calling, please provide as much information as possible about the location, date, time and cause of the fire.

Future Improvements in Fire Safety

The Hanover Insurance Group conducted a loss control service visit on August 3, 2011. They identified the following concerns:

1. The placement of some of your commercial cooking has recently changed and there is no longer proper automatic extinguishing coverage for all units. Your servicing contractor should thoroughly evaluate you existing coverage and make appropriate changes in the nozzle placement to ensure that adequate coverage is provided for all required pieces of commercial cooking equipment.

2. The grease extraction devices located in the kitchen hoods were observed to be grease covered and are in need of more frequency cleaning. The NFPA 96 commercial cooking standard states that the filters should be cleaned on a weekly basis.
3. There is currently no emergency gas shut off valve located in your science rooms. Given the layout of the facility, you have informed me that a main line disconnect is not currently feasible. As an alternative, it is suggested that you provide training to your students and professors on where the shut off valve is located under each table and that the shut off valve be properly labeled.
4. There was an electrical panel located inside the kitchen that is missing its inside cover. Your maintenance department or licensed electrical contractor should install an appropriate cover. In addition, it was noted in several of your older buildings around campus that breakers are not adequately labeled. A licensed electrical contractor should be secured to determine what the breaker covers and install labeling accordingly.

Each of these issues is in process of correction.
